

ORBIT MACHINE TOOLS & TECHNOLOGIES BENGALURU

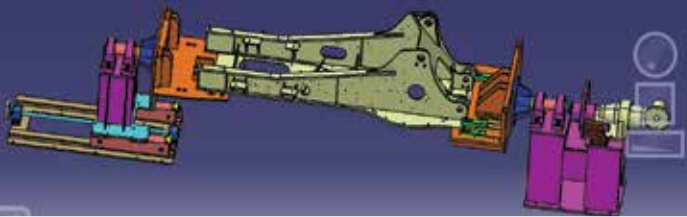

We Design & Manufacture Engineering Systems
Customized for Various Industry Needs

**WELDING FIXTURES
WELDING POSITIONERS**

Orbit is a leading provider of custom solution for the manufacturing industry. We are unique company with the experience and knowledge to provide you the right equipment to get the job done. Equipped with a diverse background we serve many different industries and have manufactured wide vareity of products.

We are designers and manufactures of engineering systems, mainly special purpose machines(SPMs), welding fixtures and welding positioners for automobile sector components and earth moving machinery components. We also support Robotic-welding set-ups and automation.

We are a company experienced through 18 advancing years providing reliable and affordable service in the line of automation for manufacturing companies.

Solid Modelling

Full Welding Positioner

Dumper Body TWF

Gear Box Test Rig

Tack Welding Fixtures

Roller Assembly Positioner

Assembly Positioner

Dumper Body TWF

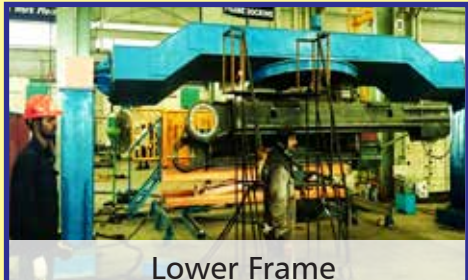

Canopy Full Welding Positioner

Side Full Welding Positioner

Chassy TWF

Lower Frame
Full Welding Positioner

Cross-Beam Welding SPM

Counter Weight TWF

Engine Assembly Positioner

Valve Leak Testing Machine

Positioner Assembly Line

Dumper Body Full Welding Positioner

Spring Can Circular
Servo Welding SPM
